# Contents

- How to Sign in to Office365
- Understand how Office 365 interfaces work
- OneDrive Introduction
- Word Introduction
- Excel Introduction
- PowerPoint Introduction
- Outlook Introduction
- One Note Introduction
- How-To Tutorial

# How to Sign in to Office365

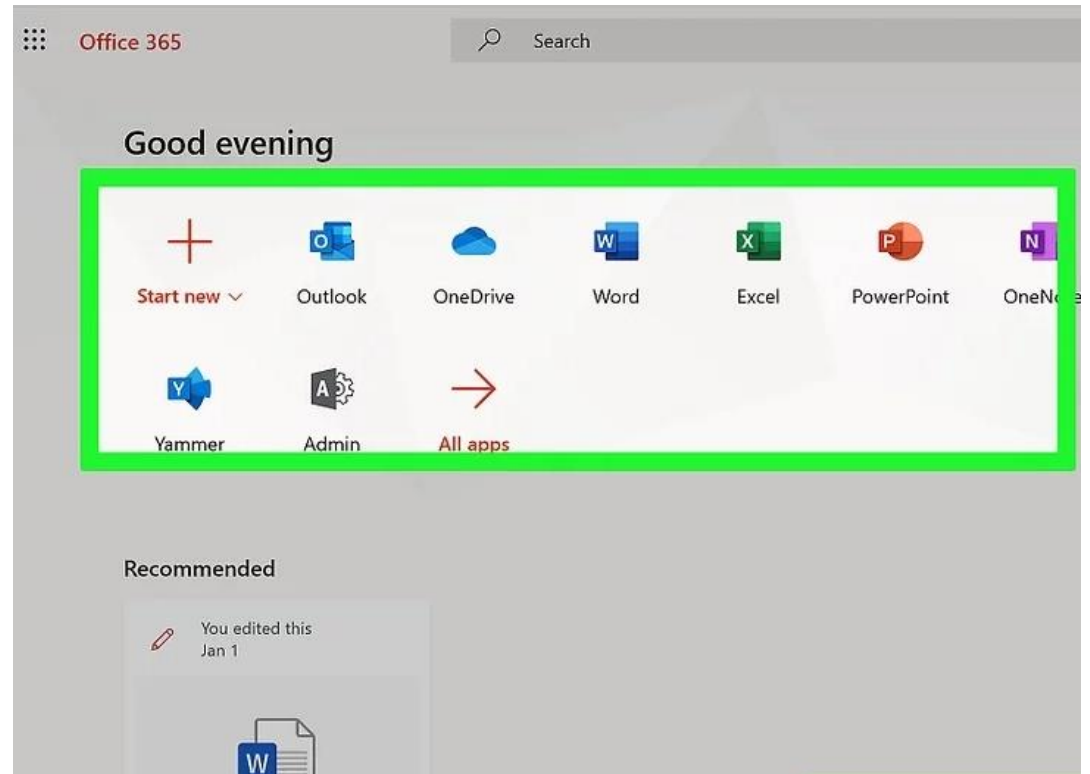

---

- Open the Internet browser.
- Go to [www.office.com](http://www.office.com)
- Click Sign in at the top right of the screen.
- Type in your Username and **Next**.
- When prompted, type in the password for your account, then click **Sign in**.

# Understand how Office 365 interfaces work

- Every Office 365 program has a main window in which you'll complete the program's main function. Additionally, each program has a colored toolbar (also referred to as a "ribbon") at the top of the window. You'll find different tab options (e.g., **Insert**) in the ribbon.
- Clicking a ribbon tab will cause the toolbar options to change.

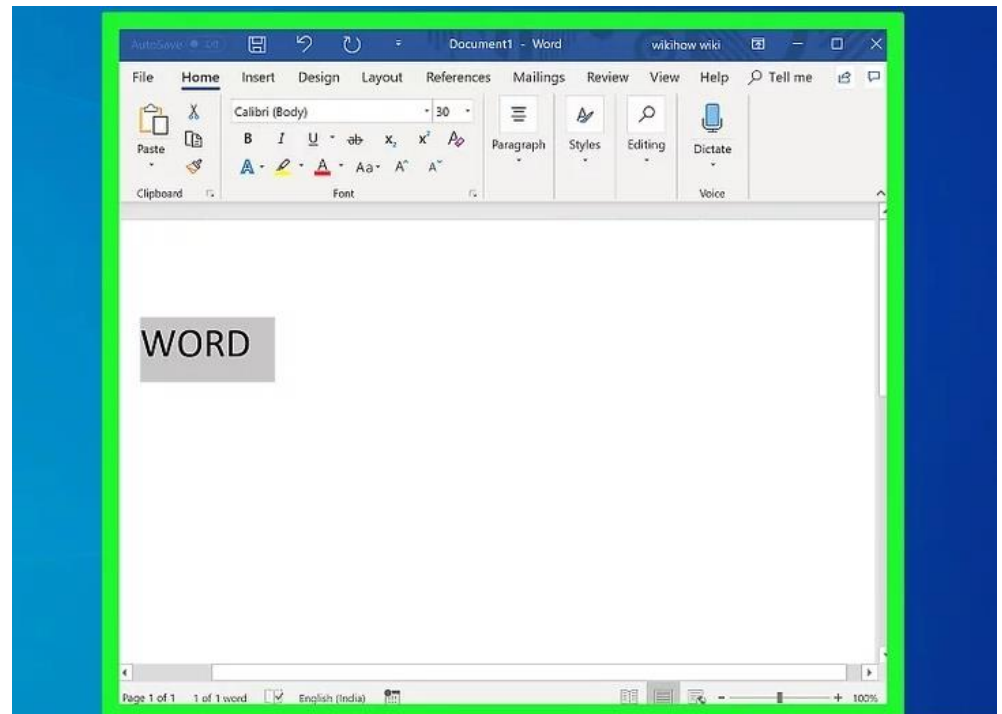

# OneDrive Introduction

- OneDrive is the cloud storage service which is connected to your Microsoft account. You can store your Office 365 documents in OneDrive in order to access them anywhere.
- Documents stored in OneDrive can be shared with other users in order to collaborate on documents.
